

Drilling Fluid Services

Convenient Location

Strategically located in Indiana to provide drilling fluids and services throughout North America.

Service Offerings

We provide a full line off A.P.I. and NSF/ ANSI Certified drilling fluid systems and additives, backed by decades of expertise from our seasoned drilling fluid engineers.

Deep Experience

- 40+ Years of Experience – Unmatched level of technical support.
- Regional Expertise – Knowledge of reservoir formations for optimized drilling fluid designs.
- Safety & Compliance – Commitment to regulatory standards and environmental protection.

Franklin Well Services, headquartered in Indiana, is a leading provider of drilling fluids, cementing, well stimulation, and completion services, specializing in the Illinois Basin region. With over 40 years of experience and thousands of wells completed, we bring deep regional expertise and advanced technology to optimize well performance. Our commitment to safety, efficiency, and environmental responsibility ensures cost-effective, high-quality solutions for conventional and carbon sequestration wells. Backed by a highly skilled team and state-of-the-art equipment, we deliver reliable and customized well services to meet the evolving needs of the oil and gas industry.

400 Main Street
Vincennes, IN 47591

Reliable Innovative Proven

At Franklin Well Services delivers unmatched drilling fluids through our unique blend of industry experience and advanced technology, all backed by rigorous safety protocols. We specialize in providing custom drilling fluid solutions, real time monitoring and unmatched technical support across conventional, CCUS, and geothermal applications--ensuring reliable, efficient, and economical results precisely matched to your project specifications.

Specialized Services

► Drilling Fluid Services

We provide semi delivery units, mud barges, and enclosed mud houses, along with real-time data recording. Whether drilling a well, for oil, gas, deep injection, or even municipal water wells, we deliver services where needed.

► Drilling Fluid Systems

We offer a complete line of job specific drilling fluid packages utilizing API and NSF/ANSI certified drilling fluids for maximized zonal protection, well bore integrity and environmental impact. Additionally, we provide fluid designs for challenging CCUS and gas storage field projects.

► Drilling Fluid Products

Weighting Materials	Lubricants
API & NSF/ANSI Viscosifiers and	pH modifiers
Polymers	Conditioners
Dispersants	Salts & Brines
Thinners	Loss Circulation & Bridging
Surfactants	Materials

The FWS Service Difference

With over 40 years of specialized drilling fluid experience, Franklin Well Services delivers premium drilling fluid solutions tailored to the industry's most demanding challenges. Our comprehensive suite of engineered fluid packages, tools, and data monitoring, and 24/7 on-site support ensures optimal performance for every applications.

We combine precisely formulated fluid designs with cutting-edge monitoring technology and dependable technical support to achieve XXXXXXXX throughout your well. Beyond technical excellence, we focus on building enduring partnerships through operational reliability, sustainable practices, cost effective solutions, and rigorous safety protocols. Partner with Franklin Well Services for drilling fluids that consistently exceed expectations and enhance long-term well performance.
